Summary

I am a software engineer, or web developer with a few years of experience coding & teaching about full-stack web applications. I have aspirations in entrepreneurship, (startups) invention (changing the world), crypto/ web 3.0 (making the new world), and much more.

Please get in contact if you'd like to ask any questions about the subjects above, or anything really!

I am currently working as a software engineer (biotech), fiddling with RapClouds.com, and documenting my learning journey in crypto/web 3.0

Experience

Software Engineer

Bayer

Apr 2021 - Present (1 year +)

- Manage React applications on the front end (Material, Recoil, Redux, Javascript)
- Manage Node JS API's on the backend (Javascript, Node)
- Work with SQL databases (Postgres QL)
- Work with corresponding AWS resources (CloudFormation, S3, RDS, etc)
- Participate in hackathons, coming up with ideas and resources

Software Developer

EOG Resources

Apr 2019 - Oct 2020 (1 year 7 months)

- Worked on several key (React) web applications used by the organization
- Designed several key components' design & functionality (React, Material, UI)
- Headed the development of automated bots that would use & test the organization's web apps, saving 100's of hours of manual work. (NodeJS, Python Flask, Puppeteer)
- Actively reviewed & created 100's of pull requests as part of a collaborative process
- Helped mentor less senior developers, helping to ensure employee growth & productivity, as well as product consistency

Technical Coach

Flatiron School

Aug 2018 - Mar 2019 (8 months)

Tech Responsibilities:

- Introduced, and taught the basic mindset and skills required to transition into programming (JS, Ruby, Python)
- Build on top of those skills to teach popular web technologies. (Ruby on Rails, Active Record, React JS, Redux JS, and many more)

- Help to plan, set up, and debug all tech listed above, in addition to more (React Native, Chrome Extensions, design frameworks, etc)

Coaching, Communication & Psych:

- Coach students through splendid learning experiences, as well as the difficult difficult ones
- Break down abstract concepts to one-sentence explanations,
- Identify learning patterns in pupils and utilize them for the most efficient learning process.
- Identify emotional cues from students that indicate the likely effectiveness of any one approach.
- Help teach more abstract skills that closely relate to programming. (Self-Reflection, Logic, Learning Processes, Planning, SCRUM, time-management, and many more)

Software Engineer

Ecotone Tech LLC

Jan 2018 - Mar 2019 (1 year 3 months)

- Implementation of new features and components in React application, using Semantic UI
- Debugging of problems within the application
- Redesigning platform's UI to be more responsive on mobile
- Assisting in deployment of the application

Chief Operating Officer

Flyest Tech

Jan 2017 - Aug 2018 (1 year 8 months)

- Creation of the online store (using Wordpress + Woocommerce), including buying the domain, hosting, email, etc.
- Suppliers and manufacturers are in direct contact with me when negotiating the terms at which their products can be sold on the website.
- Oversee virtually all aspects of the business, from Analytics (Google), Marketing, Order Fulfillment, and Customer Service.
- Handled marketing, and branding, and all e-commerce related things in this position.

Freelance Web Developer

Persisting Designs

Sep 2017 - Jul 2018 (11 months)

- Consulted businesses in the Houston area to identify possible use cases for a dedicated website.
- Talked with the staff and management to understand what the perfect site would look like.
- Set up hosting, email, website, and third party services if needed.
(Google Analytics, Business Email, Mail Chimp, Google Listing, Facebook Pixel, etc.)
- Executed on a plan to get the website up and running.
- Reiterated upon any disapproval of the product delivered.

Instructor, Administration, Sales

FITTHEOREM - HARLEM

Jan 2017 - Apr 2018 (1 year 4 months)

Helped over one hundred members make meaningful fitness and lifestyle changes that contributed to a happy, healthier them.

Consulted and enrolled many members who became regular attendees to the classes.
Assessed new members for skill level, strengths, and weaknesses, tailoring my instruction for their maximum benefit.
Coached a lot of people become kick-ass kickboxers :)
